IN-CAR ENTERTAINMENT

MO-F900BT All-in-One AVIC (Audio, Visual, Information, Communication)

Pioneer's latest navigation and multimedia system is beautifully designed to fit in with the cars interior.

The MO-F900BT is the perfect in-car solution operating as a navigation unit that connects and controls mobile phone for hands-free use and produces supreme sound with USB and SD connections. It plays multiple audio and video formats and can be linked to PCs which enables you to create and add your own points of interest to the unit's maps.

NOTE: Vehicle must have double din capabilities.

FEATURES:

What makes the difference...

- CD/DVD/MP3/iPOD/WMA/Divx Player
