## MotorOne Premier Remote Alarm

State-of-the-art Premier Remote Alarm, loaded with intelligence and features to make your vehicle secure.

### Features include:

- Remote Control Keys. The alarm system is armed and disarmed by remote control key that incorporates an anti-scanning circuit.
- Rolling Code. Built-in electronic device to stop electronic tampering, code changes everytime the remote key is pressed.
- Panic Alarm. This activates the alarm system from outside the vehicle by depressing the remote control key button for three seconds.

- Silent Arm/Disarm. If you prefer silent arm and disarm, without the chirps, it can be programmed via your remote control key.
- Boot/Bonnet/Doors. When the alarm system is armed, if the boot, bonnet or doors are opened, the alarm will trigger.
- Glass Breaker. When the alarm system is armed or if a window is broken, the alarm will trigger. The glass breaker sensor discriminates between environmental noise and the sound of breaking glass. A remote microphone is fitted.

- Automatic Reset. The alarm will sound for 60 seconds, after which it will automatically stop and reset to the 'on' position.

### Optional Features:

- Tilt sensor
- Remote boot release
- Remote window closure
- Battery back-up siren
