MotorOne MO4300™

Based on a 4.3" screen and including a stunning array of features, the newly updated MotorOne MO4300™ is putting a new face on GPS navigation.

The sleek, low profile design fits easily into virtually any car interior and, with the new version 8 iGO software, provides easy to follow directions to just about any location in Australia. Pre-loaded maps, integrated Bluetooth™ and a full featured digital media player to make the MO4300™ a truly attractive and powerful addition to the MotorOne family.

FEATURES:

What makes the difference...

- Extra wide 4.3" touchscreen
- Bluetooth handsfree
- Latest Australian mapping
- High sensitive GPS receiver
- MP3 / MP4 player
- Multi-language voice guide
- Pre-loaded speed and red light camera alerts
- Windscreen mount included
- 2 year warranty

Satellite Navigation Benefits

Easy to use

Make it easy to set your destination. 1, 2, GO! Featuring a 4.3" widescreen display, with large icons and a bright touch screen that includes a revolutionary 'splitscreen' mode, allowing you to view your progress as you travel, whilst also providing more in-depth detail on nearby points of interest, upcoming intersections and other important information

Built-in Media Player

To keep you entertained on your journey, the MO4300™ will allow you to play your digital music, view digital photos and enjoy widescreen digital movies.

Keep Your Eyes On The Road

Let the MO4300™ guide you via voice guidance in 16 languages, including English, French and Spanish.

Pre-Loaded Maps

Pre-loaded map of Australia featuring the Sensis version 15 mapping based on powered by **WhereIS** Navigation. This unit also has the capability to provide Suna live traffic updates*.

Road show

Listen to MP3 and MP4 files over headphones or via the built-in speaker, share photos with friends and family or watch movies with the included digital video player. The incredible display and high quality speakers turn the MO4300™ into a complete entertainment system for the road.

Make a connection

The MotorOne MO4300™ supports Bluetooth™ wireless technology. Simply pair your Bluetooth™ equipped cellphone with your MO4300™ when you get in the car and you will be able to make or take calls completely handsfree as you travel.
