Experience the ultimate car journey with the advanced all-in-one in car audio, visual, information and communication system with MotorOne's MO-HD3 unit.

FEATURES:

What makes the difference...

- **Simultaneous satellite navigation and audio visual entertainment**
- **Mapping pre installed on Hard Drive**
- **Exclusive 3D Gyro**
- **Bluetooth for Hands Free Mobile Phone Communication (with applicable accessory)**
- **Music Library (10GB HDD) with room for 160 hours of music**
- **Speech Recognition**
- **Rear Screen Connectivity with Dual Zone entertainment function**
- **7" Colour TFT Display**

Benefits

- Enjoy easy access to all your favourite music via CD, iPod® or other popular music devices. You can even store your favourite songs on AVIC's hard disc drive so there's no need to keep CDs in the car!
- Search for and identify destinations quickly and easily with Pioneer AVIC's state-of-the-art navigation technology.
- Talk on your mobile phone and control phone functions completely handsfree – it's convenient and safe!
- The design allows for a perfect fit into many vehicles that feature a 'double-DIN' size dash space.
- The system seems to melt into the dashboard, providing a fit and finish similar to the factory systems.
- The 7" touch screen makes for easy and safe operation of the systems features.
