- Audio volume control
- Quality audio (Digital Signal Processing)
- Up to five devices can use the system
- No cradle
- No wires, no headset
- No headset battery to charge
- Voice recognition dial up**

* Vehicle dependant ** Phone dependant

Benefits

- Displays your mobile phone's information. The kit displays your mobile phone's information on an LCD screen: incoming call number, phonebook, last number called, and so on.
- The ingenious screen can be installed where most convenient on the dashboard and provides an optimised viewing angle for greater comfort and readability.
- The car's speakers accurately reproduce the caller's voice
- Seamless communication - in the event of a call, the car radio automatically cuts out to allow for a smooth conversation.

* Please check compatibility with phone models.
